Harvest moon mineral town bachelors

You have to settle down if you want to make the most of your time in Story of Seasons: Friends of Mineral Town, and in this iteration, you can marry eligible bachelors or bachelorettes no matter your gender. There are more bachelors than bachelorettes on FoMT, and three of them are hidden wedding candidates: Huang, Bon Vivant, and Kappa. Two of them provide a fair challenge for the fan looking to really do everything over multiple playthroughs. You'll be going over the likes and dislikes for all nine bachelors, from fan-favorite Gray to the elusive and food-obsessed Bon Vivant.You can raise all your townsfolk perception by giving them gifts and talking to them every day. What matters is what you do, not what you say, though, so be sure to give gifts to those you want to be endearing. These are the winnings and losses for gifts from Favorite to Hate: Favorite Items grant 9 Friend Points and 800 Love Points Love Love Items that provide 9 Friend Points and 500 Love Points List Items grant 3 Friend Points and 300 Love Points Neutral Items grant 1 Friend Point and 100 Love Point Disliked Items Remove 3 Friend Points and 500 Love Points Hateful Objects Remove 9 Friend Points and 800 Love How to Get Married in SoS: FoMT The demands to get married haven't changed much over the years, and it's nothing crazy: Take a character's heart up to a red heart through gift giving and watching/participating in their heart events. Once a character reaches a new level of heart, you can find it at the right time and place to trigger the event for that level. Upgrade your house twice, to the Big House. It costs 150 timber, 50 material stone, and 3000G for the first upgrade, to the slightly larger house. It costs 600 timber, 250 material stone, and 10000G for the second upgrade, to the large house. Buy the big bed from the store. Give your love interest a preserved flower, one of which will be given to you for free after causing a character's red heart event. In the following lists of items, items that are particularly easy to obtain are underlined to facilitate this whole process. Don't be afraid to give someone the same things every day - it's perfectly normal! Gray likes and dislikes Gray endearing himself to most players because of the harsh treatment he receives from his grandfather, Sabara, but he comes to learn his way during his time in Mineral Town just like you do. He catches a lot of fire from Sabara, but Gray is a hard worker with a good heart. He spends most of his time in the blacksmith's, library and inn. Kai likes and dislikes Kai only in Mineral Town during the summer, but it has such an impact on it that Rick just won't shut down about how much he hates Kai - even in winter. Kai enjoys the relaxed pace of Mineral City and the friendliness of its inhabitants, but it's a little harder to woo since it's only in town for a month of the year. Fortunately, you can start giving him pineapple near the end of summer, and a fair portion of his favorite items are quite easy to obtain. Popuri is the obvious opponent for Kai's love, and his birthday is Summer 22. It's also possible to see him leave town altogether if you don't get him a job at the winery. Provided you've taken the time to get Cliff a job, he'll stay in town and you'll flirt with him until the wedding. If he's basically homeless if you don't marry him, he's not the picky guy out there. Rari's going to take him up if you don't, so get ready for his 6th birthday. Although he spends most of his time complaining initially, Rick slowly opens up to you to protect him over Popuri and Lilla, and it turns out he's not that much of a stickler as it initially seems. You're going to be competing with Karen for Rick's attention, and his birthday's coming up on the 27th of the fall. Brandon Brandon likes and dislikes Brandon is brand new in SoS: Friends of the Mineral City, and he's relatively new to the mineral city as a whole. Spending most of his time in gotts' workshop, Brandon is an artist and looks to the beauty of nature for inspiration to create new works. He is surprisingly open to simple gifts, using them to draw inspiration as well. Unlike the other more Bachelors, Brandon has no love interest. His birthday comes around 7:00 p.m. Favorite items: Matsuetta, domayaki. Huang's Likes and Dislikes Huang is the easiest of the three secret bachelors, and he really only has one special requirement: to buy the flower vase he offers you. Unlike Kappa and Bon Vivant, Huang will stay at your house. Although he only comes home from 5 m.m. onwards, he otherwise stays at Zack's to sell his wares. There are no rivals for Huang, and his birthday is on the 19th winter. Disliked and hateful objects: Building materials, garbage of all types, fodder, golden timber, letter in bottle, mysterious lithography, poisonous mushrooms, copper, ore fragments, silver. Bon Vivant's likes and dislikes bon vivant's wedding requirements are a little different from what can be used to in Friends of the Mineral City. One thing is for sure: he certainly lives up to his title as a gourmand. You don't have to worry about heart events with him, unlike most other marriage candidates. However, you will only be present in your home on days 10, 20, and 30 or every month. To tickle the imagination of Bon Vivant, you need to: Win the cooking contest five times: You probably won't be able to in your first year, so this alone will push you in six years. Cook each recipe at least once Get his love high enough Have a big house with a big bed and grant him a blue feather like everyone else It is worth noting that cooking once on it really gives the same value of love to Bon Vivant as if you were talking to him. You will only have the opportunity to give him a gift after the cooking festival (Spring 22, which is also his birthday). He will stay in the town square until 8 p.m. on the day of the cooking festival, so you have to trek back out there to give him a gift. Gift. Items: Elli leaves Liked items: Each cooked dish (but not the spring sun, the summer sun, the fall sun, or the winter sun) Disliked and hated the elements: Anything that is not a cooked Kappa dish of Likes and dislikes: Kappa is almost as hard to marry as the Harvest Goddess is, so much so that we have a guide on how to marry Kappa at FoMT Kappa will never leave the lake on Mother's Hill even after you marry him. Why would you marry him? Look at his face. Why wouldn't you? Related ContentBe sure to check our bachelorette guide as well, just in case!
